

DAY6: June 21th

島の高校生が考える海のイノベーション

## Innovation in the ocean as envisioned by island high school students

海宮「和多都美神社」の海神（わたつみ）に見守られ、青春の日々を送る長崎県立豊玉高等学校。対馬の海の恩恵によって育ってきた高校生たちは今、ふるさとの海が抱える問題を知り、海の社会課題解決に取り組む大人たちに学んでいます。2024年12月の大阪修学旅行ではブルーオーシャン・イニシアチブと交流。そこでの助言を踏まえ、島の若者ならではの視点で、美しく豊かな海を守るためのアイデアと海の未来への「願い」を発信します。

Nagasaki Prefectural Toyotama High School students spend their youthful days under the watchful eye of the sea god Watatsumi Shrine. The high school students, who have grown up thanks to the blessings of Tsushima's ocean, are now learning about the problems facing their hometown's ocean and learning from adults who are working to solve social issues related to the ocean. During their school trip to Osaka in December last year, they interacted with the Blue Ocean Initiative. Based on the advice they received there, they will share their ideas for protecting the beautiful and abundant ocean and their "hopes" for the future of the ocean from the unique perspective of the island's young people.

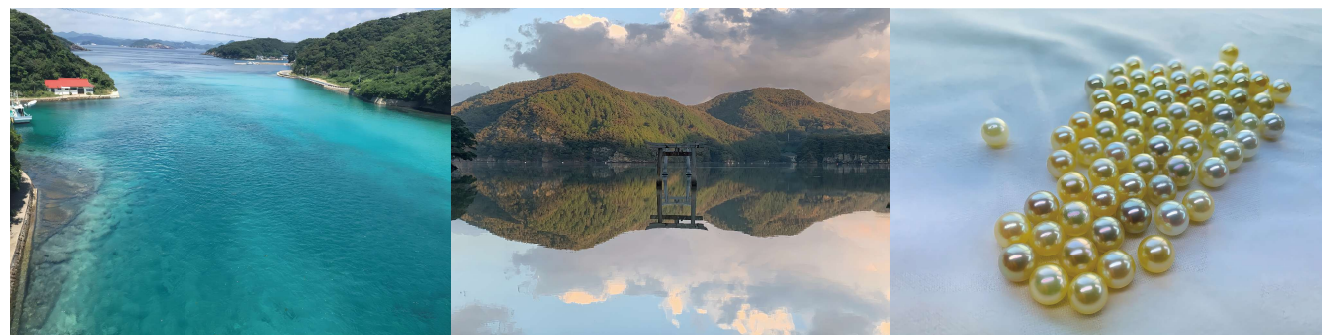

豊玉高等学校の生徒たち  
Nagasaki Prefectural  
TOYOTAMA High School  
Students

前田 剛

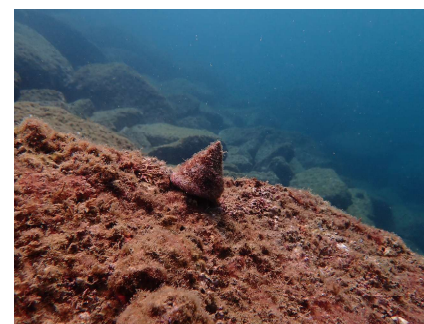

対馬市  
未来環境部 SDGs 戦略課  
副参事兼係長

Tsuyoshi MAEDA  
Deputy Director and Section  
Chief, SDGs Strategy  
Division, Future Environment  
Department, Tsushima City

豊玉高等学校校区内の美しい海・文化・水産資源

Beautiful sea, culture and marine resources within the Toshima High School district

海藻が消失し、アワビやサザエも少なくなった  
Seaweed has disappeared, and abalone and turban shells have become scarce.

磯焼け食害魚の加工と付加価値化  
Processing and adding value to fish that have turned the sea forest into desert.

海と直接触れ合い、海を知ってもらう体験ツアー  
Experience tour where you can come into direct contact with the ocean and learn about it.

総合的な探究の時間において、対馬の先進的な水産事業者に海の現状や水産振興策を学ぶ  
In the course of inquiry-based learning, students learn about the current state of the ocean and measures to promote the fisheries industry from Tsushima's leading fisheries businesses.

大阪での修学旅行におけるブルーオーシャン・イニシアチブとの交流対話。同法人の対馬での「ブルーアイランド・プログラム」の説明を聞いた上で、各班が設定した海の実践課題を発表し、企業人からアドバイスを得る

A dialogue with the Blue Ocean Initiative during a school trip 2024 in Osaka. After listening to an explanation of Blue Ocean Initiative's "Blue Island Program" in Tsushima, each group presented their own ocean-related initiatives and received advice from business person.
